Repository Management

(github)

Hosting Management

(GoDaddy, Netlify, 1&1, heroku)

CMS

(Wordpress, Shopify, webflow)

PROFILE

I am a highly self-motivated and self-taught developer and designer. My initial foray into the digital industry involved building websites using content management systems like WordPress. During my spare time, I dedicated myself to learning new skills and staying updated with industry trends, which significantly improved my efficiency and output.

As I delved further into the world of programming, I had the opportunity to collaborate with local businesses. In addition to meeting their specific requirements, I made it a point to comprehend their business models and target customer base. This understanding allowed me to provide tailored and adaptable solutions for each unique situation, a practice that was well-received by my clients. They also appreciated my quick responsiveness.

Furthermore, my role as a Subject Matter Expert at X (formerly Twitter) provided me with diverse opportunities to interact with colleagues from different teams. My efforts in this role were recognized when I was nominated for the Best Support Role in Q3 2022, which further fueled my commitment to working collaboratively and effectively as part of a highly motivated team.

EMPLOYMENT HISTORY

Specific Matter Expert at CPL for Twitter

SEP 2021 - NOW

I served as a member of the SME team, where my responsibilities included overseeing and distributing tasks among team members to ensure that service level agreements were consistently met, and that operations maintained a high level of performance. I also provided daily reports on performance and offered forward-looking insights into capacity levels to ensure that operations were consistently well-prepared for their tasks.

Freelance Web Developer

JUNE 2021 - NOW

I created WordPress and Shopify websites for small clients. Additionally, I utilized Adobe XD and React to design and implement an analytics dashboard. Furthermore, I built a Single Page Application (SPA) for the distribution of presentations to shareholders.

Junior Web Developer at Fat Fish Marketing, IRE

DEC 2018 - APR 2020

Creating websites using WordPress and Shopify, as well as developing software and website prototypes with Adobe XD. Additionally, I assist in establishing marketing platforms with integrated automated reporting, utilizing React.js and Gatsby.

EDUCATION

Certificate in Programming (LV 6) at DKIT, IRE

SEP 2018 - SEP 2019

Business Administration and Chinese Literature at Yeungnam University, KR

(NFQ Level 8 / Honours Bachelor Degree Equivalent) MAR 2008 - MAR 2015
